Full Australian working rights — Bridging Visa A (Partner visa subclass 820 lodged; permanent-residency pathway)

SUMMARY

Data Analyst with a Master of Data Science (Monash University) and hands-on experience turning raw data into decisions through SQL, Python, and interactive dashboards. Currently a Business Intelligence Analyst delivering sales, inventory, and customer reporting. Strong in SQL querying, statistical analysis, Tableau, and Excel, with end-to-end project delivery from data collection to executive-ready insight. Melbourne-based with full working rights.

SKILLS

Querying & Programming: SQL, Python (pandas, NumPy, SciPy), R

Analytics & Statistics: Hypothesis testing (t-tests, ANOVA), OLS regression, correlation, cohort analysis, time-series forecasting, A/B-test reasoning

BI & Visualisation: Tableau (published dashboards), Excel (PivotTables, Power Query, lookups), Plotly, Streamlit, ggplot2

Data Engineering & Tools: Relational databases (SQLite/SQL), ETL pipelines, web scraping, Git/GitHub, CI/CD (GitHub Actions), Docker, Agile

EXPERIENCE

Supreme Sales Agency — *Business Intelligence Analyst* Remote (Melbourne, VIC) · 2025 – Present

- Design and maintain BI dashboards tracking sales, inventory, and customer trends, giving managers a single view to make faster operational decisions.
- Build data pipelines that consolidate reporting across multiple business units into one consistent source of truth.
- Translate raw sales and inventory data into actionable insights on performance, turnover, and customer behaviour for leadership.

Geop Systems — *Data Analytics Intern* Gurugram, India · 2020 – 2021

- Analysed data from 250+ client companies using cohort analysis and regression to surface retention and growth patterns.
- Built a company-collaboration analysis of 200+ firms in Python (pandas), evaluating profitability, scalability, and cost to support partnership decisions.

IM Stocks — *Business Analyst Intern* Gurugram, India · 2022

- Analysed and optimised data from 300 client companies using R and regression analysis to improve product and service decisions.
- Led the 'Corporate Dilation' initiative, resolving software and service issues for 170+ clients.

Paytm — *Risk Analyst Intern* Noida, India · 2021

- Supported fraud-risk analysis in offline payments, strengthening merchant onboarding and consumer authentication.
- Maintained a stolen/missing-card warning database used to flag fraudulent transactions.

Woolworths Group & 7-Eleven (CXC) — *Customer-facing roles (casual)* Melbourne, VIC · 2022 – Present

- Australian customer-service experience alongside studies and analytics work — high-volume, detail-accurate, strong stakeholder communication.

PROJECTS

Australian Grocery Analytics Dashboard

2026

[Project site](#) · [GitHub](#) · Tableau Public

- Scraped 1,275 Woolworths products and engineered a 66,300-row weekly price history; ran statistical EDA (Welch's t-tests, OLS inflation, Spearman correlation) across 10 categories.
- Built an 8-week Prophet price forecast and surfaced findings in a 7-tab Streamlit dashboard and a published Tableau dashboard with KPI, trend, and brand-premium views.
- Automated weekly data refresh and redeploy with a GitHub Actions CI/CD pipeline; produced a formatted multi-sheet Excel report.

FitReview — NLP Sentiment Pipeline

2026

[GitHub](#) · [Live demo](#)

- Scraped and cleaned 6,549 Google Play reviews across 23 apps; fine-tuned a RoBERTa transformer for 3-class sentiment, reaching 93.8% accuracy and 0.935 macro-F1.
- Tracked experiments with MLflow and deployed a FastAPI inference service with a live demo.

EDUCATION

Monash University — *Master of Data Science*

Melbourne, VIC · 2022 – 2025

- Coursework: Python, Statistical Modelling (R), Databases (SQL), Data Exploration & Visualisation, Research Methodology.

Delhi University — *Bachelor of Arts, Economics (minor Commerce)*

Delhi, India · 2018 – 2021

- Graduated 3rd in cohort. President, Placement Cell — led 22 students to placements at Deloitte, EY, Genpact, and Tech Mahindra.
